

Accommodations

Although relatively narrow by today's standards Marage is an exceptional Sparkman & Stephens yawl, "MARAGE" was built to the highest standards at Werf Gusto in the Netherlands. She has a commodious interior that makes great use of her length. Entering through the companionway there is an electrical / navigation station and a good U shaped sea galley to port. To starboard there is a generous quarter berth and roomy head and shower. Main engine placement is center and provides additional counter and cabinet space to the galley. The main salon features long settee's and pilot berth areas flanking a salon table. Interior joinery is clean and well maintained; there is generous head room throughout. Marage has a V-Berth forward with private master head new solid surface counter and tasteful brightwork.

Galley

The galley is located to port and is u shaped with additional counter space provided by the engine box. There is a three burner propane stove and oven, ample refrigeration and stowage for long passages.

Electronics and Navigation

The helm is equipped with the all recent equipment such as a

- * Garmin 12" GPS color chartmap at the wheel
- * Furuno radar
- * NEXUS wind, depth, speed
- * NEXUS auto-pilot.
